

SAMPLE INTERNAL ANNOUNCEMENT

Subject: Space Sprockets Inc is Now a Partner in TXGCVolunteers - Here's What That Means

We're proud to announce that Spacely Sprockets has officially joined TXGCVolunteers as a Tier I Volunteer Partner! TXGCVolunteers is our region's disaster-response volunteer network, connecting local agencies, nonprofits, and community partners to support recovery when spontaneous volunteers are needed.

As a Tier I partner, we'll work alongside members of the Volunteer Organizations Active in Disaster (VOAD) network to ensure volunteer efforts are safe, organized, and effective. Here's what you can expect from our participation:

Volunteer Notifications - When volunteers are needed, we'll share opportunities through internal channels. Disasters are unpredictable, but we'll coordinate closely with TXGCVolunteers to give as much notice as possible.

Training Opportunities - We'll participate in 2-3 non-disaster "blue-sky" events each year to test our systems and build relationships that make response smoother when "gray-sky" days come.

Encouraging Participation - You'll receive information on how to sign up when opportunities arise. Participation is voluntary-but it's a great way to connect, grow, and serve together.

By joining TXGCVolunteers, Spacely Sprockets is strengthening both our team and our community. Stay tuned for more details-and thank you for helping us make a difference when it matters most!

More to come! For questions, contact [Name / Title / Email].
