

# Texas Gulf Coast Regional Voluntary Organizations Active in Disaster

COOPERATION | COMMUNICATION | COORDINATION | COLLABORATION

## RETURNING TO NORMAL OPERATIONS.

June 18, 2026, (Houston). The TGCRVOAD is returning to Level 4, NORMAL OPERATIONS. No significant unmet needs were reported.

### Situation Brief

The remnants of **Post-Tropical Storm Arthur** have weakened into an elongated trough over southeast Texas and southwest Louisiana and will continue moving northeast across the Southeast, producing dangerous flooding rains from Louisiana to the Florida Panhandle and Georgia.

A **Heat Advisory** is in effect from 11 AM Thursday through 10 PM Friday. High Temps: 90°-95°F / 32°-35°C Heat Index: 107°-114°F / 41°-46°C If you have AC, use it. Fans may not be adequate. Limit strenuous time outdoors in the afternoon. Stay hydrated. Wear light-weight, light-colored clothing.

**Dangerous Heat Expected**
